

700 series

Instant Curb Appeal.

The 700 Series Residential Garage Doors from Haas are made with heavy gauge galvanized steel and embossed with a deep wood grain. Combined with 1 3/4" thick, CFC free polyurethane, the 700 series is engineered for maximum energy efficiency and years of maintenance free use. A full range of color and window options, plus Limited Lifetime Warranty make the 700 series the ideal choice to add beauty and value to your home. For more information, please visit our website at: www.haasdoor.com

760 in white with 6 pane windows

764 in Sandstone with 6 pane arch windows

780 in white

A **Full Thermal Break** is used in the tongue-and-groove construction of all 700 series doors. This rigid vinyl extrusion seals the joints and eliminates metal-to-metal contact, which limits the transfer of temperature.

Weather Seal and Wind Load

All Haas garage doors include a heavy vinyl bottom weather seal that seals out the elements and repels the most hostile weather conditions.

Haas garage doors are available in a wide range of design pressures for wind load requirements. Contact your local Haas Door dealer for more information about wind load requirements in your area.

Trinar® White

Trinar® Beige

Trinar® Brown

Trinar® colors carry a 35 year finish warranty, making them ideal for projects that require lasting durability and beauty.

Due to the printing process, colors may vary. For the most accurate color match, see your Haas dealer for a metal color selector.

Unique Paint System

All Haas steel garage doors include a three-tier, corrosion resistant protective finish with a polyurethane prime and a durable polyester finish coat on the interior and exterior. Haas Door's paint thickness is one of the highest in the industry.
